

We are pleased to invite you to

A Call to Action for a Global Network of Regenerative Seascapes

FRIDAY OCTOBER 3RD • 9:00 AM – 12:30 PM

ROOM: BONI

This special session will explore regenerative seascapes as a powerful model for inclusive, locally led ocean conservation.

Through presentations, panel discussions, and interactive dialogue, participants will examine legal, governance, and finance frameworks, share lessons from the Western Indian Ocean and beyond, and identify opportunities for cross-regional collaboration to scale impact and advance the 30x30 global biodiversity goal.

Questions may be directed to shmurfy@conservation.org
